

# *Mammy nipple care balm*

care and protection of nipples from formation of the fissures

**Ingredients (INCI):** Aqua, Glycerin, Poloxamer 407, Panthenol, Elaeis Guineensis (Palm) Oil, Cocos Nucifera (Coconut) Oil, Tocopheryl Acetate.

**Mammy nipple care balm** softens painful and sore breast fissures at breastfeeding women, which heals faster thanks to the plant oils and panthenol, ingredients that are safe for mothers as well as for children. Bioadhesive gel base provides prolonged and improved contact of active substances and skin, which results in quick epithelization and pleasant feeling after application.

With continuous use during pregnancy, the balm prevent breast fissures that occure because of intensive growth of the breast in pregnancy and at the beginning of breastfeeding.

Balm contains complex of natural oils which help prevention of nipple fissures and maintain the skin nourished, vital and healthy.

**Palm Oil** is reach in ingredients which help skin regeneration.

**Coconut Oil** is fast absorbing oil that exceptionally moisturize the skin, reach in vitamine A and E and essential fatty acids.

Balm does not contain parabens, it is odourless and tasteless.

**Instructions for use:** Small amount of Mammy nipple care balm should be extruded at a top of the fingers, rubbed on the nipple and around the nipples. It is recommended to be applied several times a day, so the nipples soften and occurance of painful fissures and infections is prevented.

**Storing:** Keep the product at a temperature of up to 25°C.

**Shelf life:** 2 years.

**Packaging:** Tube with 20 ml of gel.
