# About us

**Esensa** is a manufacturer and pharmaceutical wholesaler based in Belgrade, founded in 2007, prior to which was a part of a major distributor in Serbia and Balkan region.

We are a modern, market-oriented company with the ability to respond to diverse and specific customer needs.

Our portfolio, counting over 200 high-quality products, covers different therapeutical areas and regulatory categories: medical devices, dietary supplements, cosmetics and biocide products.

Our products are developed as a result of an in-house R&D, while utilizing latest technologies in our production site.

Esensa's business strategy is based on continuous innovation in processes and formulations, excellent price to quality ratio, consistency and reliability of products and services.

**Trust and satisfaction of both our customers and business partners is our definition of success.**
