
Propomint spray 30 ml

For adults

Antiseptic spray for mouth

Ingredients (INCI): Alcohol, Aqua, Propolis extract, Sorbitol, Menthol, Caramel, Aroma, Sodium Benzoat.

Propomint spray is formulated on the base of standardized extract of propolis and menthol.

Propolis is natural product which has antibacterial and anti-inflammatory properties.

High flavonoid concentration in propolis provides natural protection against the harmful effects of free radicals and infections, regardless of the type of causative agent.

Bees collect it from different plants and therefore always have a different composition, so bacteria and viruses can not develop a resistance to it.

Positive effects that propolis manifests are: antibacterial, antiviral, antimycotic, immunomodulatory, antioxidant, and regenerative, which is very important in the prevention of infection of the mouth and throat, as well as faster recovery after infections.

In addition, propolis by reducing the number of bacteria in the oral cavity and their fermentation, prevents the formation of unpleasant breath.

Menthol in the product, apart from the antiseptic effect, also provides a fresh feeling after use.

Recommended :

- for daily hygiene of the mouth and throat
- as prevention, to prevent the creation of infections in the mouth and pharynx
- in colds and flu,
- dry and irritated throat
