

Intim gel with propolis

Ingredients (INCI): Aqua, Glycerin, Poloxamer 407, Propolis, Calendula Officinalis Oil, Achillea Millefolium Extract, Tocopheryl Acetate, Lactic Acid, Sodium Benzoate, Disodium EDTA.

Effects: Propovag® intim gel contains propolis, Marigold (*Calendula Officinalis*) oil and Yarrow (*Achillea Millefolium*) extract, ingredients traditionally used as natural antimicrobials that protect mucosa against possible infections. Using Propovag® intim gel alleviates unpleasant discomfort like excessive secretion, itching, burning sensation and irritation of the vaginal mucosa. Bioadhesive gel base has epithelizing effect and enables gradual and continuous release of active ingredients in the area of application and better adhesion of the active substances to the mucosa.

Propovag® intim gel is recommended:

- for persons prone to the infections of the intimate area
- as an aid in the treatment of inflammation of the vaginal mucosa and infections followed by excessive secretion
- for women using contraceptives
- as a prevention during swimming season (swimming suits, public beaches, sunbeds)

Instructions for use: The product is applied vaginally, before bed time, in a supine position. After opening the tube and winding the applicator, gentle pressure to squeeze out 2 cm of gel (dose for a single application) deep into vagina. Amount of gel in the tube is sufficient for 5 applications.

Notes: For external use only. Not recommended in cases of hypersensitivity to any of the ingredients. Not recommended for pregnant women.

Storage conditions: In a cool, dark place at a temperature of up to 25°C, out of reach of children.

Shelf life: 30 months

Packaging: Tube containing 20 ml of the gel, in the box, with two applicators.
